

Empowering Educators to Teach Cyber

CYBER.ORG is a cybersecurity workforce development organization with the goal to provide cybersecurity education to every K-12 student in the United States.

CYBER.ORG focuses on classroom teachers as the force multipliers helping to build the cybersecurity workforce of the future. The Cybersecurity Infrastructure and Security Agency (CISA) supports CYBER.ORG through a grant to develop and distribute elementary, middle, and high school cyber and cybersecurity curricula to educators across the country. CYBER.ORG also provides teachers with hands-on professional development training to facilitate the integration of cybersecurity education into their coursework.

Taking a closer look at CYBER.ORG activity in Louisiana

5,024 teachers
enrolled in CYBER.ORG curricula access

11,679 students
served through camps & competitions

185 event(s)
held

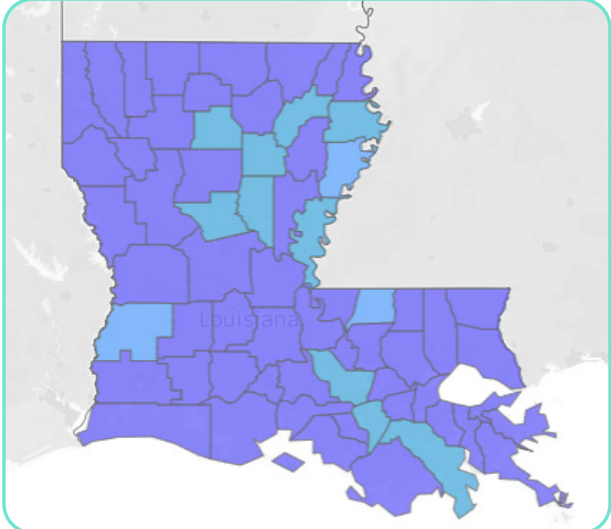

2,583 teachers
trained to use CYBER.ORG curricula

\$184,735
value of technology packages granted

3,494 jobs
available in the cybersecurity sector*
