

CYBER.ORG Range Specialist

About CYBER.ORG

CYBER.ORG, the academic initiative of The Cyber Innovation Center, is a cybersecurity workforce development organization that targets K-12 students with cyber career awareness through curricular resources and professional development for teachers. CYBER.ORG supports national security by building and sustaining a pipeline of students who are prepared to pursue cybersecurity careers. CYBER.ORG has a footprint in all 50 states and four territories. We are looking for dedicated, creative, and highly motivated individuals to join our team. We offer tremendous opportunities in developing professionals for growth and advancement in cyber education. We are currently seeking a CYBER.ORG Range Specialist to help us expand our national reach and support users on the range environment. CYBER.ORG is dedicated to making cybersecurity education available to all K-12 students throughout the US. We believe the next generation of cybersecurity professionals should be representative of the country they work to keep secure. To that end, we seek to build a CYBER.ORG team that represents diverse viewpoints and experiences, and we are committed to creating an inclusive environment for all employees.

Job Overview

The CYBER.ORG Range Specialist will report to the Director of Cybersecurity Content and will assist with developing relationships with schools and educators using the CYBER.ORG Range as well as managing user access. Our ideal candidate has experience teaching or supporting a classroom environment and knowledge of cybersecurity. This candidate must be able to communicate effectively and work well on a team, potentially managing multiple projects at once. We're looking for someone who is excited about technology and would love to help teachers realize how cybersecurity impacts their students' everyday lives.

CYBER.ORG's headquarters is located in Bossier City, LA; remote candidates will be considered. This position may require overnight travel to lead professional development sessions or represent CYBER.ORG at conferences.

Responsibilities

- Develop innovative and technology-focused classroom content and student-facing activities
- Ability to explain complex cybersecurity concepts to the appropriate audience
- Foster the expansion of the CYBER.ORG Cyber Range into additional classrooms
- Support educators in implementation of CYBER.ORG Cyber Range content and curriculum
- Represent CYBER.ORG at conferences and educational events through workshops/speaking engagements

Qualifications

Required:

- BA/BS
- K-12 Education Experience
- Ability to work in a fast-paced, project-driven environment
- Strong communication and interpersonal skills
- A growth mindset and an excitement to learn about emerging cybersecurity trends
- Basic account management software

Preferred:

- Cybersecurity experience
- Cyber range experience
- Experience presenting to groups of students or teachers

To apply, please send a cover letter, resume, and a samples of work to resume@cyber.org.
