Empowering Educators to
Teach Cyber

CYBER.ORG is a cybersecurity workforce development organization with the goal to provide cybersecurity education to every K-12 student in the United States.

CYBER.ORG focuses on classroom teachers as the force multipliers helping to build the cybersecurity workforce of the future. The Cybersecurity Infrastructure and Security Agency (CISA) supports CYBER.ORG through a grant to develop and distribute elementary, middle, and high school cyber and cybersecurity curricula to educators across the country. CYBER.ORG also provides teachers with hands-on professional development training to facilitate the integration of cybersecurity education into their coursework.

Taking a closer look at CYBER.ORG activity in
Idaho

- Collaborated with Idaho Digital Learning Academy (IDLA) to establish cybersecurity education presence in Idaho
- Presented at Power Up Conference (2019)
- Presented for iSTEM (2020, 2021) with Idaho STEM Action Center
- Presented at ISTA/ICTM Soaring with STEM Conference (2022)
