Empowering Educators to Teach Cyber

CYBER.ORG is a cybersecurity workforce development organization with the goal to provide cybersecurity education to every K-12 student in the United States.

CYBER.ORG focuses on classroom teachers as the force multipliers helping to build the cybersecurity workforce of the future. The Cybersecurity Infrastructure and Security Agency (CISA) supports CYBER.ORG through a grant to develop and distribute elementary, middle, and high school cyber and cybersecurity curricula to educators across the country. CYBER.ORG also provides teachers with hands-on professional development training to facilitate the integration of cybersecurity education into their coursework.

Taking a closer look at CYBER.ORG activity in Missouri:

- Presented jointly with CyberUP at regional professional development (2019)
- Presented MoreNET Annual Conference (2020, 2021)
- Hosted state-wide Capture-the-Flag Competition for high school students (2020-2021)

**CYBER.ORG Enrollment by County**

- **530 teachers** enrolled in CYBER.ORG curricula access
- **91 teachers** accessing the CYBER.ORG range
- **28 event(s) held**
- **462 teachers** trained to use CYBER.ORG curricula
- **$26,605 value of technology packages granted**
- **9,637 jobs available in the cybersecurity sector**
